

ZONING CHANGE REVIEW SHEET

CASE: C14-2017-0056 (Howard Lane Tract, Part 2) **Z.A.P. DATE:** May 16, 2017

ADDRESS: 13000 Block of E. Howard Lane and 13414 Harris Glenn Drive

DISTRICT AREA: 1

OWNER: Ridge Investors Limited (Robert C. Wilson, III)

AGENT: City of Austin-Planning and Zoning Department (Sherri Sirwaitis)

ZONING FROM: LO-CO **TO:** SF-4A **AREA:** 3.243 acres

SUMMARY STAFF RECOMMENDATION:

The staff's recommendation is to grant SF-4A, Single Family Residence-Small Lot District, zoning.

ZONING AND PLATTING COMMISSION:

DEPARTMENT COMMENTS:

The property in question is an undeveloped tract of land backing up to an existing residential neighborhood. The staff placed an item on the April 4, 2017 Zoning and Platting Commission agenda asking the Commission to direct staff to initiate a new rezoning case of this 3.243 acre area that was part of zoning case C14-2016-0126 (Howard Lane Tract) for a total of 13.927 acres. Case C14-2016-0126 contained two tracts of land, a northern 10.685 acre area fronting Howard Lane and a southern 3.243 acre area that is adjacent to the Harris Ridge Neighborhood. There was a staff error during the drafting process for the ordinance for this case before City Council and only the front 10.685 acre portion of the property was referenced in the final ordinance (Ordinance No. 20170302-068). Therefore, both tracts were not rezoned as posted and approved by the City Council on consent all three readings on March 2, 2017. The Commission approved the initiation request on consent and the staff filed this rezoning case to down zone the remainder of the site to SF-4A so that the error can be rectified.

The staff recommends SF-4A, Single Family Residence-Small Lot District, zoning as the proposed zoning is compatible with the existing single-family residential uses directly to the south of this site. The proposed zoning will permit the applicant to provide housing opportunities in an area with a variety of commercial and industrial employment centers along a major arterial roadway, East Howard Lane.

The owner agrees with staff's recommendation.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	LO-CO	Undeveloped
<i>North</i>	SF-4A-CO, I-RR, GR-MU	Undeveloped
<i>South</i>	SF-2	Single Family Residences (Harris Ridge Owner's Association)
<i>East</i>	GR, MF-2-CO	Undeveloped
<i>West</i>	GR, LO-CO	Service Station/General Retail Sales (Convenience)/ Food Sales (Chevron), Undeveloped

This product has been produced by CTM for the sole purpose of geographic reference. No warranty is made by the City of Austin regarding specific accuracy or completeness.

Item C-08

6 of 20

STAFF RECOMMENDATION

The staff's recommendation is to grant SF-4A, Single Family Residence-Small Lot District, zoning.

BASIS FOR RECOMMENDATION

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

Single-family residence small lot (SF-4A) district is the designation for a moderate density single-family residential use on a lot that is a minimum of 3,600 square feet. An SF-4A district use is subject to development standards that maintain single family neighborhood characteristics.

2. *The proposed zoning should promote consistency and orderly planning.*

The proposed zoning is compatible with surrounding zoning and uses as it will permit residential development that is consistent with the existing single family developed in the Harris Ridge neighborhood to the south.

3. *The proposed zoning should allow for a reasonable use of the property.*

The proposed zoning will permit the applicant to provide housing opportunities in an area with a variety of commercial and industrial employment centers along a major arterial roadway.

EXISTING CONDITIONS**Site Characteristics**

The site under consideration is a large undeveloped tract of land fronting East Howard Lane, major arterial roadway, and Harrisglen Drive, a collector roadway. The tracts of land to the north, east and west are undeveloped. The property to the south is developed with single family residences (Harris Ridge Owner's Association).

Hill Country Roadway

The site is not within a Hill Country Roadway Corridor.

Comprehensive Planning

This zoning case is located on the south side of E. Howard Lane, with street frontage also on Harrisglen Drive and Harris Ridge Blvd., which is on a vacant parcel that is approximately 13.92 acres in size. This property is not located within the boundaries of a Neighborhood Plan Area. Surrounding land uses includes vacant land to the north and east, a single family subdivision to the south, and a gas station/convenience store and vacant land to the west. The proposed use is a 169 unit single family subdivision.

Connectivity: There are no CapMetro transit stops, or retail shopping areas located within walking distance to this site. The Walkscore for this property 15/100, meaning almost all errands are dependent on a car. The AARP Livability Index Score is 52/100. The Livability Index measures housing, neighborhood, transportation, environment, health, engagement, and opportunity characteristics.

Imagine Austin

The Imagine Austin Growth Concept Map, found in the Imagine Austin Comprehensive Plan (IACP) identifies this project as being located along an **Activity Corridor** (E. Howard Lane) and partially with a Neighborhood Center. Page 106 of Imagine Austin states: “**Activity corridors have a dual nature. They are the connections that link activity centers and other key destinations to one another and allow people to travel throughout the city and region by bicycle, transit, or automobile. Corridors are also characterized by a variety of activities and types of buildings located along the roadway — shopping, restaurants and cafés, parks, schools, single-family houses, apartments, public buildings, houses of worship, mixed-use buildings, and offices.**” (P. 106) A Neighborhood Center is defined by Imagine Austin as the smallest and least intense of the three types of activity centers outlined in the Growth Concept Map, with a focus on creating local businesses and services—including doctors and dentists, shops, branch libraries, dry cleaners, hair salons, coffee shops, restaurants, and other small and local businesses that generally serve the center and surrounding neighborhoods.

The following IACP policies are relevant to this case:

- **LUT P3.** Promote development in **compact centers**, communities, or along corridors that are connected by roads and transit that are designed to encourage walking and bicycling, and reduce health care, housing and transportation costs.
- **LUT P7.** Encourage infill and redevelopment opportunities that place residential, work, and retail land uses in proximity to each other to maximize walking, bicycling, and transit opportunities.
- **HN P1.** Distribute a variety of housing types throughout the City to expand the choices able to meet the financial and lifestyle needs of Austin’s diverse population.
- **HN P10.** Create complete neighborhoods across Austin that have a mix of housing types and land uses, affordable housing and transportation options, and access to schools, retail, employment, community services, and parks and recreation options.

Analysis and Conclusion

Howard Lane is transitioning away from a rural road to one that is quickly filling up with large single family subdivisions but contains little in the way of goods and services to serve people living next to this major corridor. The Imagine Austin Growth Concept Map supports residential uses being located along Activity Corridors but based on a lack of connectivity and goods and services within and around the project area, this project appears to be only partially supported by the plan.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Harris Branch Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

According to floodplain maps there is no floodplain within or adjacent to the project location. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

Trees will likely be impacted with a proposed development associated with this rezoning case. Please be aware that an approved rezoning status does not eliminate a proposed development's requirements to meet the intent of the tree ordinances. If further explanation or specificity is needed, please contact

the City Arborist at 512-974-1876. At this time, site specific information is unavailable regarding other vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Impervious Cover

The maximum impervious cover allowed by the SF-4A zoning district would be 65%. However, because the watershed impervious cover is more restrictive than the zoning district's allowable impervious cover, the impervious cover is limited by the watershed regulations.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

Note: The most restrictive impervious cover limit applies.

Site Plan

No site plan comments at this time.

Stormwater Detention

At the time a final subdivision plat, subdivision construction plans, or site plan is submitted, the developer must demonstrate that the proposed development will not result in additional identifiable flooding of other property. Any increase in stormwater runoff will be mitigated through on-site stormwater detention ponds, or participation in the City of Austin Regional Stormwater Management Program, if available.

Transportation

This site is subject to the approved TIA associated with zoning application case number C14-98-0257 (Harris Ridge Retail). At a minimum, the TIA shall be revised with the zoning application to account for the change of uses at the time of residential review. Please contact Scott James (Scott.James@austintexas.gov) to discuss the requirements.

Per Ordinance No. 20170302-077, off-site transportation improvements and mitigations may be required at the time of site plan application.

According to the Austin 2014 Bicycle Plan approved by Austin City Council in November, 2014, a protected bike lane is recommended for E Howard Lane, and a bike lane is recommended for Harrisglenn Drive.

It is recommended that joint access be provided to Harrisglenn Drive for both lots along. (i.e. it is recommended to have one driveway accessing Harrisglenn Drive for both lots.

FYI – the tracts shall comply with the block length requirements at the time of subdivision application.

FYI – at the time of the subdivision application, Scranton Drive shall be extended through the property as right-of-way dedication.

FYI – It appears that the sidewalks along E Howard Lane may not be ADA compliant. The existing sidewalks shall be reconstructed at the time of subdivision construction or site plan application.

Existing Street Characteristics:

Name	ROW	Pavement	Classification	Sidewalks	Bike Route	Capital Metro (within ¼ mile)
E. Howard Lane	130 ft.		Major Arterial	Yes	Yes, wide curb lane	No
Harrisglenn Drive	80 ft.	60 ft.	Collector	No	Yes, Wide curb lane	No
Scranton Drive	50 ft.	30 ft.	Local	Yes	No	No

Water and Wastewater

FYI: The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, water or wastewater easements, utility relocations and or abandonments required by the proposed land use. Depending on the development plans submitted, water and or wastewater service extension requests may be required. Water and wastewater utility plans must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fees once the landowner makes an application for Austin Water utility tap permits.

MEMORANDUM

TO: Ms. Jolene Kiolbassa, Chair
Members of the Zoning and Platting Commission

FROM: Sherri Sirwaitis, Senior Planner, Zoning Case Management
Planning and Zoning Department

DATE: March 29, 2017

RE: **Request to Initiate a Rezoning Application for Property located at 13000
Block of E. Howard Lane and 13414 Harris Glenn Drive**

The item under discussion is a request to consider directing Staff to initiate a rezoning case from LO-CO to SF-4A-CO for 13000 Block of E. Howard Lane and 13414 Harris Glenn Drive.

This is a request to initiate a re-zoning of 3.243 acre area that was part of zoning case C14-2016-0126 (Howard Lane Tract) for a total of 13.927 acres. Case C14-2016-0126 contained two tracts of land, a northern 10.685 acre area fronting Howard Lane and a southern 3.243 acre area that is adjacent to the existing Harris Ridge Neighborhood. There was a staff error during the drafting process for the ordinance for this case before City Council and only the front 10.685 acre portion of the property was referenced in the final ordinance (Ordinance No. 20170302-068). Therefore, both tracts were not rezoned as posted and approved by the City Council on consent all three readings on March 2, 2017.

The staff is asking the Commission to direct the initiation of rezoning for the remaining 3.243 acre southern tract so that this error can be rectified.

The Zoning and Platting Commission reviewed the rezoning request for case C14-2016-0126 on February 7, 2017. The Zoning and Platting Commission's recommendation is stated below:

ZONING AND PLATTING COMMISSION:

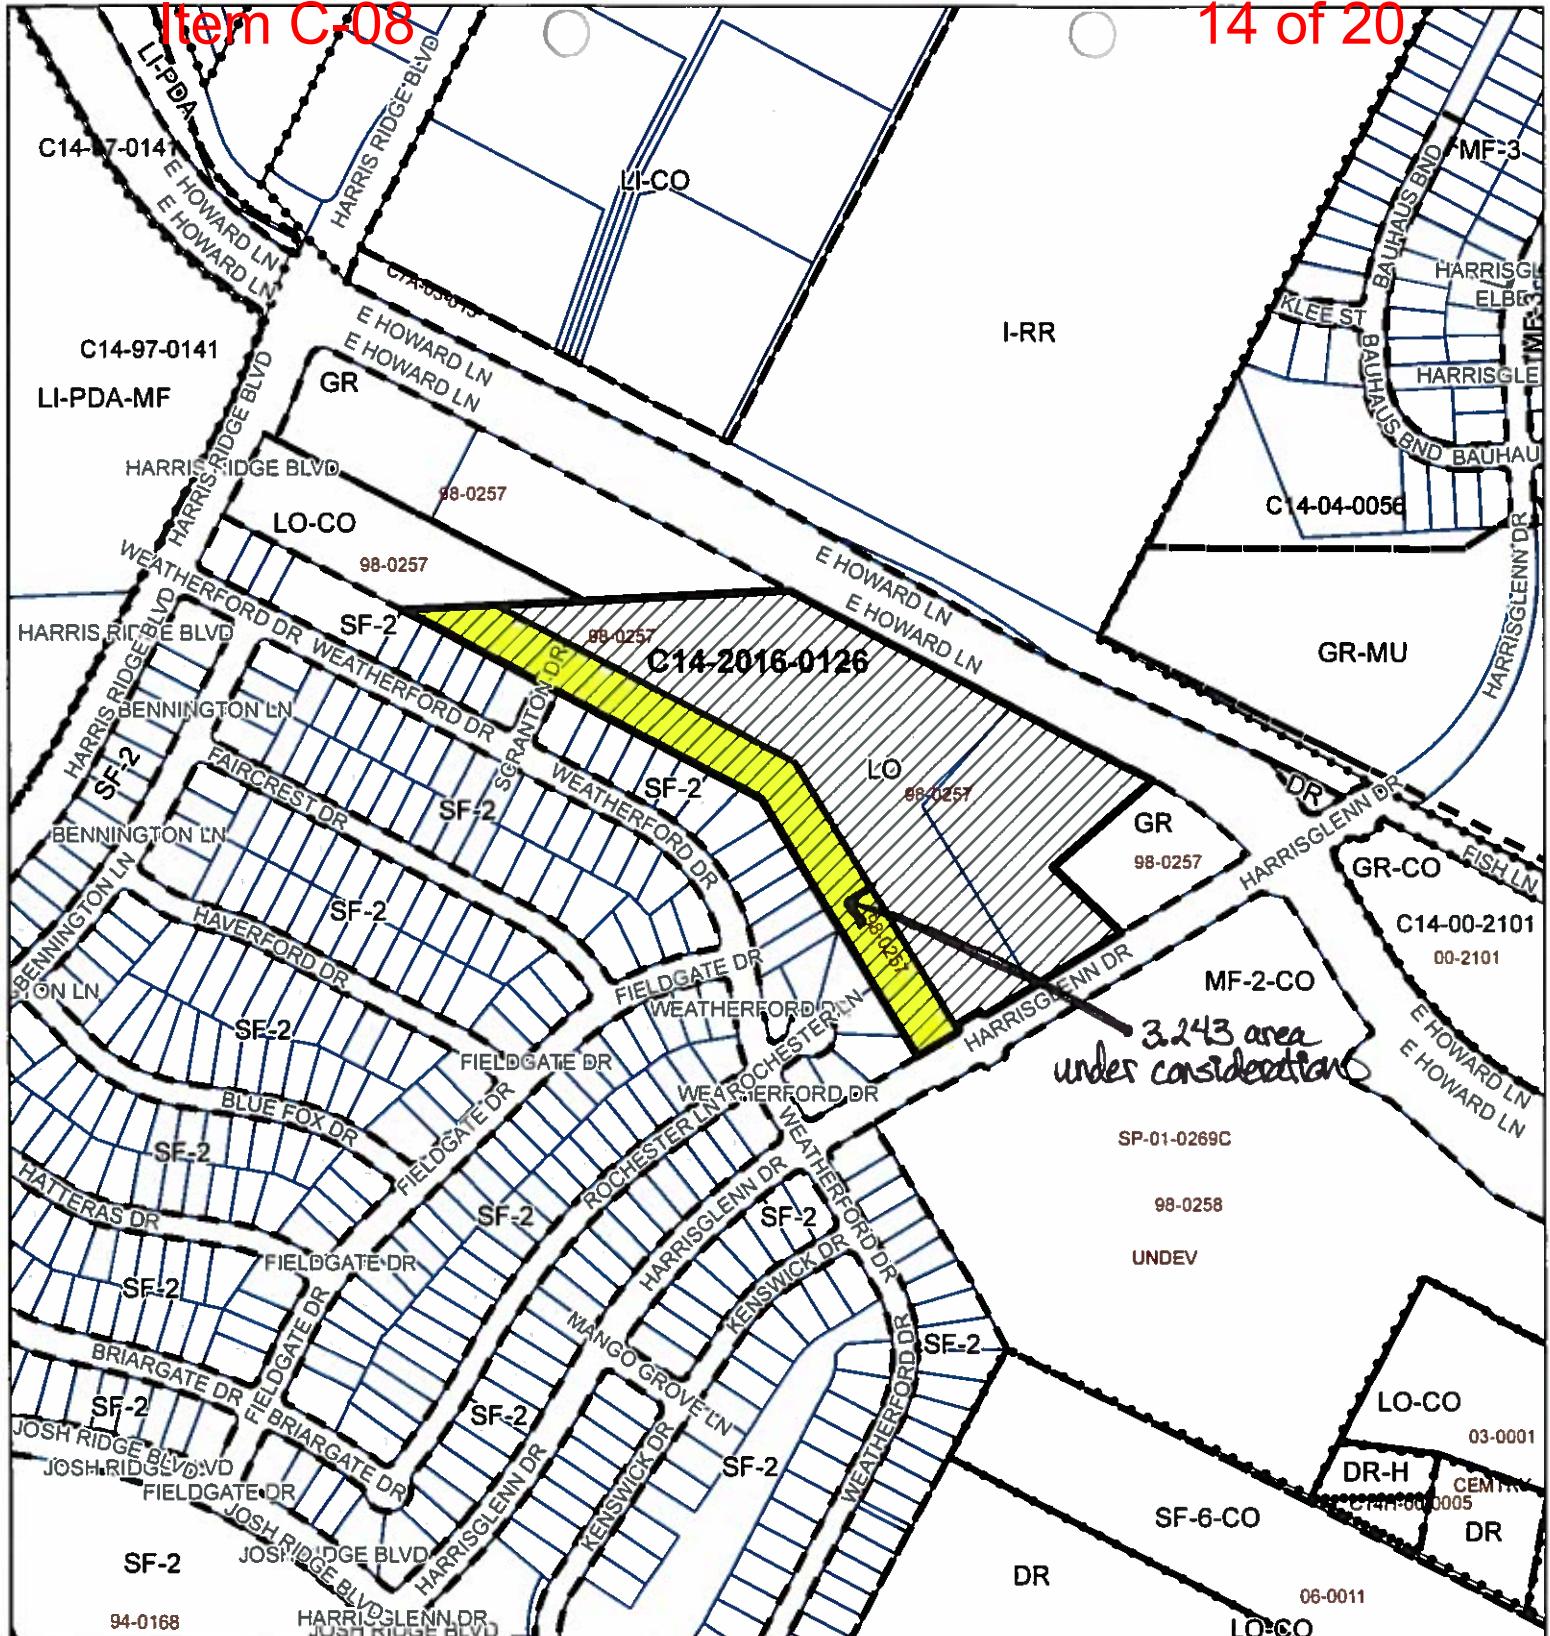

2/07/17: Approved staff's recommendation of SF-4A-CO zoning on consent, additional condition to prohibit driveway access to East Howard Lane and to require a roadway connection to Scranton Drive (9-0, B. Greenberg and J. Kiolbassa-absent); G. Rojas-1st, B. Evans-2nd.

ORDINANCE NO. 20170302-068

AN ORDINANCE REZONING AND CHANGING THE ZONING MAP FOR THE PROPERTY LOCATED AT 13000 BLOCK OF EAST HOWARD LANE AND 13414 HARRIS GLENN DRIVE FROM LIMITED OFFICE-CONDITIONAL OVERLAY (LO-CO) COMBINING DISTRICT TO SINGLE-FAMILY RESIDENCE SMALL LOT-CONDITIONAL OVERLAY (SF-4A-CO) COMBINING DISTRICT.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The zoning map established by Section 25-2-191 of the City Code is amended to change the base district from limited office-conditional overlay (LO-CO) combining district to single-family residence small lot-conditional overlay (SF-4A-CO) combining district on the property described in Zoning Case No. C14-2016-0126, on file at the Planning and Zoning Department, as follows:

10.685 acres of land, more or less (approximately 465,461 sq. ft.) in the Alexander Walters Survey No. 67, Abstract No. 791, Travis County, Texas, being all of a 10.697 acre tract described in Document No. 2000020187 and 2000023772 of the Official Public Records of Travis County, Texas and being a portion of a 23.857 acre tract conveyed to Ridge Investors Limited in a special warranty deed dated October 8, 1993 and recorded in Volume 12038, Page 1581 of the Real Property Records of Travis County, Texas, being also a portion of Lot 1, Block L, Harris Ridge Phase I Section IV, a subdivision of record in Volume 86, Pages 156D-157A of the Plat Records of Travis, County, Texas; said 10.685 acres being more particularly described by metes and bounds in Exhibit "A" incorporated into this ordinance (the "Property"),

locally known as 13000 Block of East Howard Lane and 13414 Harris Glenn Drive in the City of Austin, Travis County, Texas, generally identified in the map attached as Exhibit "B".

PART 2. The Property within the boundaries of the conditional overlay combining district established by this ordinance is subject to the following conditions:

- A. Vehicular access from the Property to East Howard Lane is prohibited. All vehicular access to the Property shall be from other adjacent public streets or through other adjacent property.
